Summer Youth Tennis in La Crosse

Tennis provides opportunities that are unique. Tennis is a great individual sport. Children of all ages can learn to play successfully & develop at their own pace. Tennis is also a great team sport. There are social aspects & teammate camaraderie. Tennis is a great gift that every parent can provide to their child.

PARENTS ROLE:

Tennis is an easy game to learn but it will take time & dedication to meet the challenge of improving skills to achieve the goal of playing it well. As children go through the process of becoming a player, they will have numerous experiences that will serve as life lessons and create teachable moments. The parent has a support role in these endeavors. Parents need to understand the ups & downs of winning & losing so they can keep the long-term development of their child in focus. GOOD SPORTSMANSHIP is important for both the player and the parent. Tennis provides opportunities for kids to learn & develop character by playing by the rules, making line calls, respecting officials & opponents, learning to win humbly and lose graciously. Parents should take these opportunities to teach character at the highest standard. For More Information: www.netgeneration.usta.com

Thank you to the La Crosse Parks and Recreation Department for partnering with USTA Wisconsin to provide tennis instruction and match play opportunities for children and adults in the City of La Crosse.
