

BIKE SHARING SUITABILITY STUDY

Bike Share Suitability Study - Scores By Census Block

0.000000	3.000001 - 4.000000
0.000001 - 1.000000	4.000001 - 5.000000
1.000001 - 2.000000	5.000001 - 6.000000
2.000001 - 3.000000	6.000001 - 7.000000

0 0.25 0.5 1 Miles

Bike sharing suitability scores are loosely based on studies done by the City of Pittsburgh and the City of Seattle. Ten factors were analyzed to determine an overall score for each census block in the city. Map created by the City of La Crosse, Department of Information Systems and Technology. Printed on: 6/11/14.
